Released: Monday, August 22, 2011

### **Car Crashes into Building**

On August 22<sup>nd</sup> at approximately 10:45 am, Beaverton Police responded to a report of a car crashing into a building at 14605 SW Millikan Way. Upon arrival officers learned a single vehicle struck three parked cars in the parking lot of the Izakaya Sushi Restaurant before jumping the curb and striking the building. When the vehicle struck the building a table on the inside wall of the restaurant struck a male employee in the hip. The employee complained of pain to his hip and was later transported to a local hospital.

The driver of the vehicle, a 32 year old male, appears to have suffered a seizure, which led to the crash. The vehicle is a blue 2004 Mazda 3.

Witnesses reported seeing a vehicle pulling out of a parking space before accelerating rapidly. The vehicle then struck three parked cars before jumping the curb and striking a fire hydrant. The vehicle then struck the restaurant, which caused a table on the inside wall to hit an employee in the hip. The vehicle either bounced or rolled back and was not inside the restaurant when officers arrived. It appears that the vehicle did not travel very far inside of the restaurant.

The 32 year old male driver was treated at the scene before being transported to a local hospital. The driver was conscious but confused and dazed, leading medical personnel to believe he had suffered a seizure. The male had no visible injuries from the crash but he was not able to properly communicate with medical personnel to confirm that.

Officers are currently investigating and any additional details will be added to the news release.
